

# **Prostate Net Health Scholar Poster Winners**

## **Presentations**

**Mark Litwin, MD, MPH Announces Winners**  
**Professor of Urology and Public Health, UCLA**

### **Mr. Simons**

All the doctors you met here today at one point were, as these two young ladies were, students. They are the winners of our Student Health Poster Contest. [applause] They are engaged in study in terms of cancer, the impact of cancer, and the cure for cancer. I hope and trust that one of them, or both of them, might be able to find a cure for it.

### **Dr. Litwin**

We saved the best for last because everything you have heard thus far is from the elderly, and what you are going to hear now is from the pipeline. Two presentations bookend the critical elements of moving cancer research and cancer care forward into the next century when we are all on the receiving end and you all are on the giving end of the cancer care. We have one presentation that is from the basic science realm, and one presentation that is from the population sciences realm, and both of these medical students have presented award winning posters that have been judged in a peer reviewed fashion, and hence, their presence here today. Jacquelyne Gaddy from the University of Buffalo has collaborated with faculty members at Roswell Park Cancer Institute, will speak to us about persistent racial
